- **ATM Option Premium:** NIFTY ka ATM option rate aam taur par **Rs. 100 se Rs. 160** ke beech hota hai.

Trade Scenario	Capital Deployed (Paisa)	Max Risk on Trade	Account Safety Factor
1 Lot (25 Qty) Purchase	Rs. 2,500 – Rs. 4,000 approx	Rs. 600 – Rs. 800 (Max loss)	Aapka 95%+ capital account me safe rehta hai.

4. Kitne Loss Pe Automatic Bech Dega? (Stop-Loss Protection)

Bot jaise hi order place karta hai, uske sath hi system me strict **Stop-Loss Order** active ho jata hai:

Risk Layer	Trigger Point / Formula	Automatic Action
Per-Trade Stop-Loss (Individual Trade SL)	NIFTY Index me ~10 to 20 pts SL. Option Premium me: -6 to -10 Points	Jaise hi premium SL point par pahuchega, bot bina ruke Market Order se sell karke exit kar dega. Max loss Rs. 800-1,000 per lot par cut.
Daily Circuit Breaker (Account Lock Protection)	Rs. -5,000.00 Cumulative Day Loss	Agar din ka realized nuksan Rs. 5,000 touch karega, toh bot Emergency Shutdown ho jayega aur pure din naya order block kar dega.

2. Trailing to Breakeven (Capital Shield)	Jab trade +7 se +8 points munafa (profit) me aa jati hai.	Bot Stop-Loss ko utha kar entry rate (cost-to-cost) par le aata hai taaki jeeti hui trade kabhi loss me na jaye.
